Red Lily Vineyards is committed to a single goal—producing the finest tempranillo wine possible. The winery and tasting room are located in a picturesque setting on the banks of the Applegate River, and include a private riverside beach area. Seasonal food menus include soups, salads, sandwiches and cheese/antipasti platters.

Red Lily is named for the Bolander Lily, a rare species of red lily and after winery owners Les & Rachael Martin's daughter, Lily. The property includes 3 Estate Vineyards: Thompson Creek Vineyard—named aptly for its location on Thompson Creek, Bean Patch Vineyard—named after the initial owners of the property who grew bush beans on the land, and Stargazer Vineyard—named because the elevated knoll in the center of the vineyard is a perfect place for nighttime stargazing!

Les and Rachael note, "When we first began exploring the concept of a vineyard in Southern Oregon in 2001, we were absolute novices. Though we had no idea how to start, we proceeded cautiously and thanks to a lot of research and hard work, as well as the contributions of a lot of great people, Red Lily Vineyards has become a reality."

EDENVALE WINERY

Edenville Winery sits on historic acreage that includes the Voorhies Mansion, a tasting room and Rogue Valley Wine Center. Winemaker Ashley Campanella handcrafts Tempranillo, Cabernet Franc, Syrah, Malbec, Grenache, Merlot, Pinot Noir and Chardonnay. The tasting room offers daily specials.

The site is considered the 1885 birthplace of Oregon's commercial pear industry—a unique destination for wine lovers and history buffs alike. The stately Voorhies Mansion and property represents the "place and story" anchoring the Rogue Valley's agricultural history. It's the perfect place for wine tasting, weddings and private events. In summer, they offer a popular Thursday night music series.
